[illegible][illegible][illegible]

The screenshot shows the Visual Studio Code editor with the 'PROBLEMS' panel open. The panel displays a list of errors, grouped by generation (8, 9, 10). The errors are related to the 'System.Linq.IGrouping' type and its base type 'IEnumerable'. The errors are listed as follows:

- Generation 8: 1 error (1 icon)
- Generation 9: 1 error (1 icon)
- Generation 10: 1 error (1 icon)

The errors are:

- The type 'System.Linq.IGrouping<TKey, TElement, IEnumerable<TElement>>' is in namespace 'System.Linq', but its base type 'IEnumerable' is not defined here.

The status bar at the bottom shows the file path: PS C:\Users\luisa\OneDrive\Escritorio\EN...
